

## LEVEL 2 NVQ STRUCTURE FOR CLADDING OCCUPATIONS (CONSTRUCTION)

Version 1 of the combined NVQ and TQT structure Feb 2025

<b>Guided Learning Hours</b> – eg contact time or supervised learning with a mentor/tutor/supervisor including onsite or in a classroom.
<b>Assessment</b> – The average hours it would take to assess the candidate's competence in the particular function – this <b>can</b> contribute to guided learning, but this has been kept separate in building the qualification value
<b>Other Learning</b> – eg Learners own study/research, practice of skills, compilation of portfolio of work evidence
<b>Duplicated Learning</b> – units are derived from National Occupational Standards. When the units are combined for the occupational NVQ, elements of learning in one <b>occupational</b> unit are repeated in others. Hence there is a degree of duplication. The organisations involved in determining TQT also agree the amount of time in each <b>occupational</b> unit that is duplicated. For this NVQ, these elements are considered to represent 40 hours. This needs to be included for TQT once for the <b>occupational</b> units, so where there are two <b>occupational</b> units (excluding core units 641, 642 and 643) 1 x 40 hours would be deducted similarly where there are three <b>occupational</b> units (excluding <b>core</b> mandatory units 641, 642 and 643), there would be a deduction of 2 x 40 hours = 80 hours

<b>Nb:</b> as qualifications are currently still built on units, which individually state guided learning hours, which has in the past excluded assessment, the values are shown separately
<b>Nb:</b> previous/older forms reflect Ofqual TQT guidance from March 2015 'After the QCF', where qualifications had to have Guided Learning, Directed Learning and Invigilated Assessment assigned as components of TQT
